

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Joseph Sychowski
DOCKET NO.: 03-22404.001-R-1
PARCEL NO.: 08-31-203-002-0000

The parties of record before the Property Tax Appeal Board are Joseph Sychowski, the appellant, by attorney Rusty A. Payton of the Law Offices of Rusty A. Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property consists of a 48-year old, two-story frame dwelling containing 1,815 square feet of living area with a crawl-space foundation, central air conditioning, and a two-car garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted a grid analysis detailing four suggested comparable properties. On the appellant's map, the comparables are located approximately 0.75 to 1.25 miles from the subject. The comparables are two-story frame or frame and masonry dwellings that are 35 years old. None of the comparables has a basement, but two comparables have central air conditioning. Information on garages was not disclosed, but photographs supplied by the appellant indicate that each comparable has a two-car garage. The comparables contain 1,845 to 1,998 square feet of living area, and each has an improvement assessment of \$8.55 to \$9.04 per square foot. The subject property has an improvement assessment of \$12.92 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's assessment was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing one

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	6,154
IMPR.:	\$	23,443
TOTAL:	\$	29,597

Subject only to the State multiplier as applicable.

suggested comparable property that is located one block from the subject. The comparable property consists of a 51-year old two-story frame dwelling containing 1,160 square feet of living area with a slab foundation and a three-car garage. The comparable has an improvement assessment of \$19.60 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is not warranted. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of five equity comparables. The appellant's comparables differed significantly in location and age from the subject. As a result, they received reduced weight in the Board's analysis. The board of review's comparable differed substantially in size and also received reduced weight. As a result, none of the comparables was sufficiently similar to the subject to provide clear and convincing evidence that the property was inequitably assessed. The Board notes that all comparables had improvement assessments ranging from \$8.55 to \$19.60 per square foot. The subject's \$12.92 per square foot improvement assessment is within that range.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has not adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board are subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
